

CELL BIOLOGY COURSE:

Seeking a creative approach
for current challenges

INSTITUT CURIE - FUNDACIÓN CIENCIA & VIDA

January 22nd - 26th, 2018

Fundación Ciencia & Vida, Santiago, Chile

Institut Curie in France and **Fundación Ciencia & Vida** in Chile invite graduate students and postdoctoral fellows to participate in a unique one-week Cell Biology course.

This course will immerse students and researchers in an intense collaborative work, stimulating creative thinking for the development of an “out-of-the-box” project. This will be a full week of hard work and fruitful discussion with peers that will encourage the participants to question their established ideas about cell biology.

We invite you to be part of this scientific exercise that aims to expand not only the scope of your challenges in science but also your friends list!

INVITED SCIENTISTS FROM FRANCE

Christophe Lamaze, *Institut Curie*
Claire Hivroz, *Institut Curie*
Danijela Vignjević, *Institut Curie*
Guillaume Dumenil, *Institut Pasteur*
Jean-Léon Maître, *Institut Curie*
Philippe Benaroch, *Institut Curie*
Pierre Sens, *Institut Curie*
Sebastian Amigorena, *Institut Curie*

INVITED SCIENTISTS FROM CHILE

Álvaro Glavic, *Universidad de Chile*
Álvaro Lladser, *Fundación Ciencia & Vida*
Juan Pablo Henríquez, *Universidad de Concepción*
María Soledad Matus, *Fundación Ciencia & Vida*
Miguel Concha, *Universidad de Chile*
Patricia Burgos, *Universidad Austral*
Rodrigo Pacheco, *Fundación Ciencia & Vida*
Tomás Pérez-Acle, *Fundación Ciencia & Vida*
